DETAILED ACTION

This office action is responsive to amendment filed on 11/05/2009.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 – 3, 9 – 12, and 20 - 24, drawn to a method of establishing e-mail communication between a sender device and receiver device which both have telephone numbers and access to the public switched telephone network (PSTN), without the need of being connected to the Internet.

Group II, claim(s) 14 - 18, drawn to a method of providing automated network functionality of an in-house main network for controlling in-house appliances as a telemail-based application.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: **Group I is directing to establish e-mail communication between a sender and a receiver without using Internet, and Group II is directing to provide automated network functionality to control in-house appliances.**
